

Multimedia Description:

INTRO:

How many seconds would you like your intro to be _____ sec.

Please check items you would like to have implemented into the introduction.

Voice Over Music Sound Effects Animation/Motion Graphics Video Pictures

Please briefly describe your intro below. **INTRO example:** *We would like our logo to animate in and fade out with sound effects. We*

have some text (mission statement) maybe a paragraph with a basic slide show of ten pictures capturing the essence of our company and the surrounding

area (pictures to be provided by us). We would also like some background music (created byVividminds, Inc.) At the end of the intro we

would like to fade into the main interface.All text will be provided digitally.

INTRO DESCRIPTION: (also; please list which elements you will be providing and which elements that you would like us to create).

The "Interface" is the splash screen where users can navigate throughout different sections of your presentation. Fill out the names and descriptions of each main section/category as well as the sub-sections within each main section. Please explain the dynamics of each section in detail. Note all elements within each section including video, graphics, pictures, text, animation, music, voice overs, links to the web or links to PDF's etc. You may find you need to create your own outline if sections become to involved (most likely in the sub-sections). If you have any questions or need any help creating or concepting please feel free to call us: 760-783-3883.
